(631) 944-0690 – frankr@aa-tech.com

AA Technology has taken initiatives by implementing a robust COVID-19 prevention program.

We are an essential business, serving the military, aerospace and pharmaceutical industries and implemented this world class program that enables our business to continue operations with no interruptions protecting our valued customers.

Program includes:

- **Closely monitor the New York State and CDC guidelines.**
- **General guidelines implemented for social distancing, personal protective equipment PPE and personal hygiene has been implemented throughout the organization.**
- **Face masks are issued and required to be worn by all associates daily.**
All associate entrances scan and record temperatures. An alarm will sound for those above the threshold and not allow entrance.
- **All associates are double checked for temperature by each manager upon start of the work shift.**
- **Created a Facility Cleaning and Disinfection Policy for each associate to follow during daily activities.**
- **Created Policy and Protocol for Return to Work Following Positive Test result for COVID-19**

AA Technology has taken this issue seriously to continue to protect our customers from product delays and services.
